# FAQs

## **Do you offer destination wedding packages, or do we need to customize everything from scratch?**

We offer customizable destination wedding packages tailored to your vision. While we provide comprehensive planning services, we also understand that every couple is unique—so we'll work with you to create a personalized experience that fits your needs and budget.

## **What is typically included in a destination wedding package, and what's an additional cost?**

Our destination wedding packages typically include full-service planning, vendor recommendations, timeline creation, logistical coordination, and on-site management. Additional costs may include venue fees, travel expenses, lodging, catering, entertainment, floral arrangements, and any local permits required. We'll provide a clear breakdown of costs so there are no surprises.

## **What's the advantage of hiring you as a destination wedding planner, even though you're not local?**

We have a dedicated nationwide team that works closely with local vendors, and our extensive network allows us to ensure everything runs smoothly, no matter where your wedding is taking place. Our commitment to continuous education and strong relationships with trusted vendors means we can handle all the details and logistics with confidence, giving you peace of mind and allowing you to fully enjoy your special day.

## **How will you coordinate the wedding if you're not in the same location as the wedding venue?**

We handle everything remotely through virtual meetings, vendor coordination, and detailed planning documents. If needed, we can travel to the destination or work with a trusted local coordinator to oversee logistics.

## **Can we do site visits if you're not in the destination area?**

Absolutely! We can help coordinate site visits, whether that means setting up virtual tours, arranging in-person visits with trusted vendors, or even traveling to the destination if needed. If we're not already in the area, we'll ensure you have all the details you need to make an informed decision.

## **How do we ensure our wedding will feel personal even though it's far from home?**

We'll collaborate closely with you to understand your vision, preferences, and traditions, and then work with local vendors to bring those details to life. From custom décor to personalized experiences for your guests, we make sure that every aspect of your wedding reflects your unique story. Additionally, we'll help you create a seamless flow of events that mirrors the intimate and personal atmosphere you desire, no matter the distance.

## **How do you find reliable vendors in the destination area?**

With our extensive network and experience planning weddings in various locations, we've built relationships with vendors all over. We thoroughly vet each vendor, ensuring they align with your style, budget, and expectations. If we haven't worked in your chosen destination before, we tap into our industry connections to find the best local professionals.

## **Can I bring my own vendors to the destination?**

Absolutely! We work with many destination brides who will bring their own vendors to their wedding. We see this mostly with wedding planners, photographers, videographers, officiants, and sometimes florist!

## **How do you handle logistics like travel arrangements, accommodations, and transportation for our guests?**

We will collaborate with a travel agent to make sure all travel arrangements are perfectly suited to you and your guest.

## **How will you handle local regulations, permits, and paperwork for the wedding?**

We research the legal requirements for your destination and guide you through obtaining any necessary permits or paperwork. Our team ensures everything is properly handled so your wedding is legally recognized.

## **How do you ensure the wedding reflects our vision if you're not familiar with the location personally?**

We work closely with the venue throughout the planning process to ensure your layout is as detailed and accurate as possible. Upon arrival, we'll also meet with the staff for a final walkthrough and review the layout. Additionally, there are other opportunities for us to visit the venue beforehand if needed.

## **Can you help us organize pre- and post-wedding events like rehearsal dinners or farewell brunches, even if you're not there?**

Yes! We can help plan all your wedding weekend events, including welcome parties, rehearsal dinners, and farewell brunches. Even if we're not physically there, we'll coordinate every detail with the venue and vendors to ensure a seamless experience.

## **How do I find an officiant for a destination wedding?**

We can provide recommendations for officiants based on your location and preferences. Whether you want a local officiant, a religious leader, or even a friend to officiate, we'll guide you through the process to ensure everything is legally recognized.

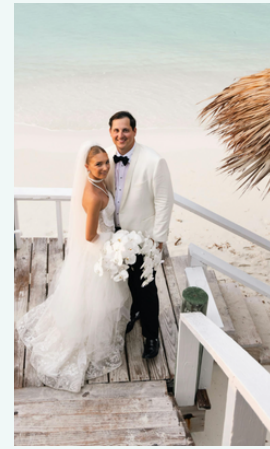

## **How far in advance should I start planning my destination wedding?**

We recommend starting at least 12 to 18 months in advance, especially for popular destinations or peak seasons. This allows time for securing venues, booking travel accommodations, and finalizing all the important details. However, if you're working with a shorter timeline, we can still make magic happen!

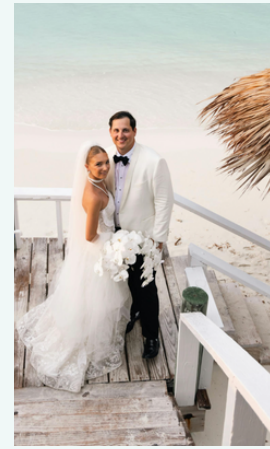

# SPAIN

# CANCUN

# GREECE

# BAHAMAS
